

SOLAR STIK®

Marine Wind Turbine Installation Kit

20 in – Item # 17-0001014
26 in – Item # 17-0001015

Overview

The Marine Turbine Installation Kit is the prewired mast top extension for either the Air Silent X or Air Breeze wind turbines. Solar Stik products are modular, which provides users the option to add a wind turbine to the Marine 100 System—either during initial system installation or at a later time. Available in both 20- and 26-inch heights, this kit is a Plug & Play solution for adding a wind turbine to the Marine 100 System.
