

SOLAR STIK®

Flexi-Panel Leash

25 ft - 12VDC Item # 13-0000039

25 ft - 24VDC Item # 13-0000040

Overview

The Flexi-Panel Leash connects up to four (4) copper indium gallium selenide (CIGS) or amorphous silicon (AS) Flexi-Panels, in series, to a single solar charge controller. The bundle splice in this heavy-duty cable is structurally reinforced to prevent strain-related damage.

Note: Panels of different types (wattage, voltage, PV materials) should not be connected into a single array.

General

Warranty

1-year materials and workmanship
