

DANGER

DO NOT CONNECT 120 VAC PRO-Verters DIRECTLY TO 230 VAC/50 Hz SOURCE!

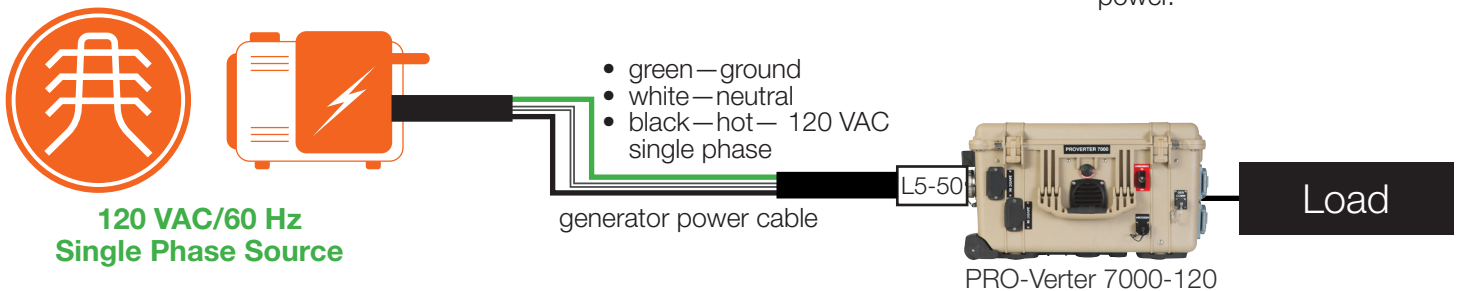

- **DO NOT connect the generator power cable to a 230 VAC/50 Hz source. THIS WILL DESTROY 120 VAC PRO-Verters.**
- The 120VAC PRO-Verters are designed for ONLY 120VAC/60 Hz single-phase power.
- 230 VAC/50 Hz single-phase power **IS NOT COMPATIBLE** with 120 VAC PRO-Verters.

DON'T LET THIS HAPPEN!

This PRO-Vert 7000 was connected to 230 VAC/50 Hz power.
